ORDERING INFORMATION	
Part No.	Description
SK2DVMMKVM10-TAA	10 ft DVI KVM Cable

OVERVIEW

The SK2DVMMKVM10-TAA 10ft DVI cable is designed for seamless connectivity in environments requiring high reliability and security, such as Secure KVM switches or other applications needing robust data transfer. This cable supports the connection between devices with DVI ports to those with DVI ports, ensuring efficient data transmission.

TAA Approved for use by the U.S. Government, this cable guarantees compliance with the strict standards set for federal procurement, making it an ideal choice for government installations, educational institutions, and corporate environments where compliance is mandatory. Its robust construction ensures durability and consistent performance, making it perfect for digital signage, multimedia setups, or any professional application where a reliable connection is crucial.
